Images-guided minimally invasive surgery:

a revolution which cannot be overlooked

*J. Marescaux - Strasbourg - France*

**Friday, October 30**

**Lower GI**

*J. Leroy*

*Strasbourg - France*

**Honorary President**

**J. Marescaux**

**President of the Course**

**F. Corcione**

*Dear friends,*

based on decades experience of Courses "Full Immersion", we decided to change the organization of this week, to get - if possible- a teaching value more schematic and perhaps more effective. There will be, as always, every day a lot of "live surgery", and with some clarification of the technical discussion of the topics of greatest scientific interest. Every day there will be a chapter of abdominal pathology and every day we will have a Special Guest which, with its unique and specific experience, will enrich our cultural heritage.
